Transition from old Legacy code to Part Number is complete.

What does this mean?

It means all our products have been transitioned from the Legacy codes over to Part Numbers.

What does this mean to me?

We ask you to familiarise yourself with the difference between Legacy Code and Part Numbers. Here are what the Part Numbers look like.

	PART NUMBER	PACK QTY	BARCODE
125 x 1.0 x 22.23mm A46T MEGA INOX	66252919991	100	9314188004271

But why?

Seamless numbering provides a better service now and in the future for all our customers.

How will you help me with the transition?

Of course we will assist anyone, so give us a call if you are still unsure how this will affect your business.

Following pages are our tables to assist you with any immediate queries.

Transforming surfaces ...and beyond

A NEW, SUCCINCT AND INSPIRATIONAL VISION

Our Vision aims at clarifying where we want to get to by a specific point in time, in the long term, in line with our Purpose.

It is also a picture of how we see the world in the future once successful in completing our business mission.

Each word of our vision has been carefully selected to be inspirational, inclusive, specific to our business whilst also being universal and easy for everyone to understand. You will find more details (below) regarding the meaning behind each of the words.

Some words have multiple meanings, some are actionable and some are conceptual, giving even more power to our vision.

Creating surface solutions for a better world

A NEW TAGLINE

While our previous tagline 'Reshaping your world' was already very powerful, it was unfortunately too restrictive to Abrasives and not covering the diversity of our wider business unit.

Our new tagline remains powerful and relates to everything we do Transforming Surfaces ...and beyond, leaving room for innovation and growth (as detailed below).

Transforming is everything we do starting with surfaces thanks to our solutions including products, tools, services & systems.

And beyond leaving room for innovation & growth. We transform beyond surfaces - we go deep and we go the extra mile for our customers, transforming not only how we do business but transforming our people and our planet.
