Engine Bay Cleaners

AutoSmart offers a comprehensive range of water-based and solvent-based engine bay cleaners and degreasers, designed to handle everything from heavy baked-on grease to light-duty cleaning and surface-safe degreasing.

BLACK STEAM

AVAILABLE SIZES
5L, 20L, 200L, 1000L

High strength alkaline degreaser.

- Black Steam is suitable for removing heavy traffic films, grease, oil and carbon build up.
- Cleans and degreases engine bays and mechanical componentry.
- Ideal for cleaning workshop floors.

PRODUCT STRENGTH

DEGREASER HD

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Medium strength alkaline degreaser.

- Degreaser HD is suitable for removing heavy traffic films, grease, oil and carbon build up.
- Cleans and degreases engine bays and mechanical componentry.

PRODUCT STRENGTH

ENVIRO CLEAN

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Low hazard, low alkaline, multi-purpose cleaner.

- Enviro Clean is suitable for removing light traffic films, grease, and oil build up.
- Cleans and degreases engine bays and mechanical componentry.
- Enviro Clean is versatile, safely cleaning greasy fingerprints from interiors.

PRODUCT STRENGTH

G101

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Premium strength multi-purpose cleaner and degreaser, with a pleasant lemon lime fragrance.

- G101 is suitable for removing traffic films, grease, and oil build up.
- Cleans and degreases engine bays and mechanical componentry.
- G101 is versatile, safely cleaning greasy fingerprints from interiors.
- Ideal for cleaning workshop floors.

PRODUCT STRENGTH

HIGH FLASH PLUS 10

AVAILABLE SIZES
5L, 20L, 200L, 1000L

High strength, non-flammable solvent cleaner and degreaser.

- Safe and effective removal of heavy oil and grease deposits from engine bays and mechanical componentry.
- High Flash Plus 10 greatly reduces the potential of combustion around ignition sources.

PRODUCT STRENGTH

JET DEGREASER

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Low hazard, high strength, low-caustic degreaser.

- Jet Degreaser removes heavy traffic films, grease, oil and carbon build up on engine bays and mechanical componentry.
- Jet Degreaser is ideal for companies that require a non-damaging strong degreaser and are conscientious about worker health safety.
- Particularly effective on fresh grease and oils.

PRODUCT STRENGTH

PLUS 10

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Highly effective solvent-based degreaser designed for the removal of heavy oil and grease deposits.

- Cleans and degreases engine bays and mechanical componentry.
- Plus 10 contains rust inhibitors and will not affect painted surfaces or rubbers.
- Emulsifies with water for easy rinsing.

PRODUCT STRENGTH

SMARTSTEAM

AVAILABLE SIZES
5L, 20L, 200L, 1000L

High alkaline caustic degreaser.

- Smart Steam is suitable for removing heavy traffic films, grease, oil and carbon build up.
- Cleans and degreases engine bays and mechanical componentry.
- Ideal for cleaning workshop floors.

PRODUCT STRENGTH

TRUCKSTEAM

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Trucksteam is a versatile high strength alkaline degreaser.

- Penetrates and breaks down heavy traffic films and baked on grease and oils.
- Cleans and degreases engine bays and mechanical componentry.
- Ideal for cleaning workshop floors.
- Proven effective where milder degreasers have been inefficient.

PRODUCT STRENGTH

PREDATOR

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Fast-acting heavy-duty degreaser.

- Predator is suitable for removing heavy traffic films, grease, oil and carbon build up.
- Cleans and degreases engine bays and mechanical componentry.
- Ideal for cleaning workshop floors.

PRODUCT STRENGTH

TRIPLE

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Triple is a premium strength heavy-duty degreaser.

- Triple is suitable for removing heavy traffic films, baked on grease, oil and carbon build up.
- Cleans and degreases engine bays and mechanical componentry.
- Ideal for cleaning workshop floors. Proven effective where milder degreasers have been inefficient.

PRODUCT STRENGTH

WAX ATTACK

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Solvent-based degreaser designed for the removal of heavy oil and grease deposits.

- Cleans and degreases engine bays and mechanical componentry.
- Wax Attack contains rust inhibitors and will not affect painted surfaces or rubbers.
- Emulsifies with water for easy rinsing.

CONTAINER SIZES

Engine Bay Dressings

AutoSmart Australia's engine bay dressings provide aesthetic enhancement, practical protection, and durability, making them an ideal choice for maintaining a vehicle's engine bay in top condition.

ARMOUR GLOW

AVAILABLE SIZES
5L, 20L, 200L

Water-based silicone dressing containing a pleasant new car fragrance.

- Armourglow applies a high gloss finish on plastic trim, engine covers and rubber hoses.
- Armourglow can be diluted if a softer low sheen finish is required.

ARMOUR PLUS

AVAILABLE SIZES
5L, 20L, 200L

Highly concentrated water-based silicone dressing containing a pleasant berry fragrance.

- Armour Plus applies a high gloss finish on plastic trim, engine covers and rubber hoses.
- Highly concentrated, Armour Plus can be used neat or diluted for maximum economy.

EASY SHEEN

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Solvent based silicone dressing for engine bays.

- Easy Sheen applies a high gloss finish on plastic trim, engine covers and rubber hoses.

ENGINE & TYRE DRESSING

AVAILABLE SIZES
5L, 20L, 200L

Long-life engine and tyre lacquer dressing which leaves a permanent dry touch finish.

- Applies a permanent high gloss finish on plastic trim, engine covers and rubber hoses.
- Non-yellowing and is oil, heat and weather resistant.
- Ideal for coating metal engine casings, as well as all engine componentry.
- **Silicone Free – Panel Shop Safe.**

FINISH

AVAILABLE SIZES
5L, 20L, 200L

Water-based silicone dressing containing a pleasant berry fragrance.

- Finish applies a medium gloss finish on plastic trim, engine covers and rubber hoses.
- Finish leaves a softer low sheen finish when compared with Armour Plus and Armourglow.

GLOW PLUS

AVAILABLE SIZES
5L, 20L, 200L

Concentrated water-based silicone dressing for engine bays.

- Applies a high gloss finish on plastic trim, engine covers and rubber hoses.
- Highly concentrated, Glow Plus can be used neat or diluted for maximum economy.

QUICK SHINE

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Solvent based silicone dressing for engine bays.

- Quick Shine applies a high gloss finish on plastic trim, engine covers and rubber hoses.

MECHOIL

AVAILABLE SIZES
AEROSOL, 5L, 20L, 200L

Superior 4 in 1 lubricant and penetrant, which protects against rust and corrosion.

- Removes moisture from electrics in engine bays.
- Mechoil can be used to chemically insulate electronic componentry minimising the risks associated with water damage during the cleaning process.
- Penetrates rapidly, lubricates, and leaves a long-lasting film.
- Silicone Free – Panel Shop Safe.**

LANOLIN DRESSING

AVAILABLE SIZES
5L, 20L, 200L

Lanolin Dressing is a multi-purpose lubricant and protectant made with a premium grade of lanolin grease and penetrating oil.

- Anti-moisture, anti-corrosion lubricant.
- Can be used to chemically insulate electronic componentry, minimising the risks associated with water damage during the cleaning process.
- Penetrates rapidly, lubricates, and leaves a long-lasting film.
- Provides anti-corrosion protection against contaminants like salt and acidic soils.
- Silicone Free – Panel Shop Safe.**

SHINE ON

AVAILABLE SIZES
5L, 20L, 200L

“Non-silicone Armourglow”, Shine On is a water-based non-silicone dressing.

- Contains a pleasant new car fragrance.
- Applies a satin finish on plastic trim, engine covers and rubber hoses.
- Shine On can be diluted if a softer low sheen finish is required.
- Silicone Free – Panel Shop Safe.**
