Acid Based Wheel Cleaners

AutoSmart's acid-based wheel cleaners deliver powerful results for removing tough brake dust and road grime, offering versatility and cost-effectiveness through concentrated formulas that can be diluted for different cleaning needs.

ALI

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A medium strength acid-based wheel cleaner and aluminium cleaner & brightener.

- Ali effortlessly removes brake dust and road grime.
- Cleans and brightens alloy wheels.
- Cleans and brightens aluminium.

PRODUCT STRENGTH

ALI EXTREME

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A mild acid-based wheel cleaner and aluminium cleaner & brightener, containing less than <1% hydrofluoric acid.

- Ali Extreme contains foaming surfactants providing high cling.
- Allows for a greater dwell time.
- Low hydrofluoric acid content makes it ideal for businesses who wish to minimise workplace risk.

PRODUCT STRENGTH

ALI KING

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Our premium strength acid-based wheel cleaner and aluminium cleaner & brightener.

- Ali King is ideally used for highly oxidised aluminium and heavily contaminated alloy wheels.
- Ali King easily cuts through baked-on brake dust and road grime.
- Cleans and brightens aluminium.

PRODUCT STRENGTH

ALI KING YELLOW

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A powerful acid-based wheel cleaner and aluminium cleaner & brightener.

- Ali Yellow effortlessly removes brake dust and road grime as it cleans and brightens alloy wheels.
- Ali Yellow is ideal for removing concrete and rust stains from hard surfaces.
- Cleans and brightens aluminium.

PRODUCT STRENGTH

ALI RED

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A high strength acid-based wheel cleaner containing less than <1% hydrofluoric acid.

- Ali Red is ideally used for cleaning highly oxidised aluminium and heavily contaminated alloy wheels.
- Ali Red easily cuts through baked-on brake dust and road grime.
- Low hydrofluoric acid content makes it ideal for businesses who wish to minimise workplace risk.

PRODUCT STRENGTH

RED ACID HD

AVAILABLE SIZES

CONTAINER SIZES

Alkaline Based Wheel Cleaners

AutoSmart's alkaline-based wheel cleaners effectively remove tough contaminants like brake dust and grime, offering a safer solution for various wheel finishes, including alloys and plastic trims, while minimizing the risk of damage or corrosion.

BLACKSTEAM

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A high strength alkaline degreaser and acid-free wheel cleaner.

- Blacksteam removes brake dust and road grime as it cleans and brightens alloy wheels.
- Cleans the rim, tyre and wheel arch in one easy step.
- Touch free wheel cleaner designed for the customer not wanting to scrub.

PRODUCT STRENGTH

CITRUS 101

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A premium strength multi-purpose cleaner, degreaser and non-acid wheel cleaner.

- Contains a pleasant citrus fragrance.
- Removes brake dust and road grime as it cleans and brightens alloy wheels.
- The alkaline formula makes Citrus 101 ideal for cleaning the rim, tyre and wheel arch in one easy step.

PRODUCT STRENGTH

DEGREASER HD

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A medium-duty degreaser and non-acid wheel cleaner.

- Removes brake dust and road grime as it cleans and brightens alloy wheels.
- The alkaline formula makes Degreaser HD ideal for cleaning the rim, tyre and wheel arch in one easy step.

PRODUCT STRENGTH

G101

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A premium strength multi-purpose cleaner, degreaser and non-acid wheel cleaner.

- Contains a pleasant lemon lime fragrance.
- Removes brake dust and road grime as it cleans and brightens alloy wheels.
- The alkaline formula makes G101 ideal for cleaning the rim, tyre and wheel arch in one easy step.

PRODUCT STRENGTH

PREDATOR

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A fast-acting heavy-duty degreaser and non-acid wheel cleaner.

- Removes brake dust and road grime as it cleans and brightens alloy wheels.
- The alkaline formula makes Predator ideal for cleaning the rim, tyre and wheel arch in one easy step.

PRODUCT STRENGTH

RED 7

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Red 7 is a pH neutral, acid-free wheel cleaner, designed for performance and safety.

- Reacts with iron particles found in brake dust creating a bright red run-off that bleeds down the wheel.
- Red 7 is safe to use on all vehicle surfaces and wheel types.
- Ideal for use on carbon-ceramic brake systems, polished aluminium, chrome and anodised rims.
- pH neutral.

PRODUCT STRENGTH

TRIPLE

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Premium strength heavy-duty degreaser.

- Removes brake dust and road grime as it cleans and brightens alloy wheels.
- Triple is suitable for removing heavy traffic and baked on brake dust.
- Cleans heavily contaminated tyres, rims and wheel arches in one easy step.
- Touch free wheel cleaner designed for the customer not wanting to scrub wheels, rims and wheel arch.

PRODUCT STRENGTH

WHEEL KING

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Premium strength highly effective non-acid wheel cleaner.

- Wheel King is high foaming providing excellent cling and extended dwell time.
- Easily removes heavy baked-on brake dust.
- Perfect for cleaning road grime and old silicone from tyres.
- Touch free wheel cleaner designed for the customer not wanting to scrub wheels, rims and wheel arch.

PRODUCT STRENGTH

PRESTIGE XLS

AVAILABLE SIZES
5L, 20L, 200L, 1000L

A low alkaline non-acid wheel cleaner containing 'traffi wax.'

- Prestige XLS is designed to clean and protect.
- Surface safe, Prestige XLS will not mark brightwork.
- Suitable for cleaning polished aluminium, chrome and anodised rims.

PRODUCT STRENGTH

SMARTTEAM

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Medium strength high alkaline caustic degreaser and non-acid wheel cleaner.

- Smartsteam removes brake dust and road grime as it cleans and brightens alloy wheels.
- The alkaline formula makes Smartsteam ideal for cleaning the rim, tyre and wheel arch in one easy step.

PRODUCT STRENGTH

Tyre Dressings

AutoSmart's advanced range of tyre dressings are designed to give tyres the ultimate shine and protection. Formulated to enhance the appearance of tyres while providing a durable barrier against dirt, UV rays, and cracking, our dressings deliver a long-lasting, high-gloss finish.

AUTOBLACK

AVAILABLE SIZES
5L, 20L

Autoblack is a bitumen based paint, ideally used as a water and weather resistant tyre and rubber paint.

- Autoblack has excellent coverage and high gloss finish.
- Ideal for marked or scuffed rubber.
- **Silicone Free – Panel Shop Safe.**

EASY SHEEN

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Solvent based silicone tyre dressing suitable for application on all exterior trims.

- Dresses rubber, tyres, plastics and vinyl.
- Easy Sheen is long lasting, producing a high gloss finish on tyres.

ENDURO SHINE

AVAILABLE SIZES
5L, 20L, 200L

Long-Life, High-Gloss Tyre Lacquer which leaves a permanent, dry touch, durable finish.

- Seals and protects all rubber and exterior plastic trims.
- Creates a high-gloss chemical resistant coating.
- Repeated applications produce a deeper gloss finish
- **Silicone Free – Panel Shop Safe.**

ENGINE & TYRE DRESSING

AVAILABLE SIZES
5L, 20L, 200L

Long-life lacquer dressing which leaves a permanent dry touch finish on good quality tyres.

- Engine and Tyre Dressing is non-yellowing and is oil, heat and weather resistant.
- **Silicone Free – Panel Shop Safe.**

GLOW PLUS

AVAILABLE SIZES
5L, 20L, 200L

Concentrated water-based silicone dressing for interior and exterior trims.

- Glow Plus is ideal for application on rubber and tyres, producing a satin finish.
- Concentrated, Glow Plus can be used neat or diluted for maximum economy.

HIGH STYLE NON-SILICONE

AVAILABLE SIZES
5L, 20L, 200L

Solvent-based non-silicone dressing designed for use on tyres and all exterior plastic and rubber trims.

- High Style Non-Silicone leaves a long-lasting high gloss weather resistant finish.
- **Silicone Free – Panel Shop Safe.**

PURE SHINE

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Water-based non silicone gel style tyre, exterior rubber and plastics dressing.

- Cleans and restores all rubber and trims to an “as new” appearance.
- **Silicone Free – Panel Shop Safe.**

RUBBER DRESSING

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Water-based non silicone high gloss tyre dressing.

- Cleans and restores all rubber and trims to an “as new” appearance.
- **Silicone Free – Panel Shop Safe.**

TREADS

AVAILABLE SIZES
5L, 20L

Treads is a water-based paint designed to coat chassis and rubber.

- Treads is ideally suited for use as a tyre black.
- When applied, Treads will dry to a matt/satin finish.
- **Silicone Free – Panel Shop Safe.**

TRIM SHINE

AVAILABLE SIZES
500ML, 1L, 5L, 20L

Thick silicone-based gel style dressing for application on exterior plastic trims and tyres.

- Trim Shine is long lasting, weather resistant and resistant to wash off.
- Highly concentrated.

TYRE DANDY

AVAILABLE SIZES
AEROSOL

High foaming aerosol tyre dressing.

- A convenient and fast way to clean and restore colour to tyres.
- Leaves a durable, waterproof high sheen finish.
- Typically, 20-30 tyres from one aerosol.

QUICK SHINE

AVAILABLE SIZES
5L, 20L, 200L, 1000L

Solvent based silicone tyre dressing suitable for application on all exterior trims.

- Suitable for dressing rubber, tyres, plastics and vinyl.
- Quick Shine is long lasting, producing a medium sheen finish on tyres.
